LightWing Studios Announces Five New AxeGlove® Generation II Models For Winter NAMM 2010

Posted by Harmony Central News on Jan 13, 2010 1:00:00 AM

LightWing Studios today launched their second major product line model expansion in six months with the release of a new wave of AxeGlove® Generation II Guitar Protection Systems during Winter NAMM 2010. "We're excited to be introducing new models for Firebird, Explorer, Flying V, Jaguar and Jazzmaster guitars, bringing our lineup to 21 models and a total of 84 versions for Right and Left handed players. We've also launched an aggressive Worldwide Dealer Campaign. Our newest dealer is Raul Barrios of The G.A.S. Station in Puerto Rico." said Patrick Pearce, President of LightWing Studios. "I like to keep my guitars in pristine condition and want my customers to do the same. With the AxeGlove, I can enjoy my guitars without any worries about damaging the finish. I'm convinced it is 'a must have' for any guitar player who loves their axe." said Barrios. "AxeGlove is always customer driven. We're continuing that tradition of a truly player designed product which is made in America with 100% Green Materials." said Chief Designer Lyuba Pearce. AxeGlove® is a complete, two (2) piece system which encompasses BOTH the neck and body of solid body electric guitars and basses is now offered for Gibson SG, Les Paul Standard, Custom, Deluxe, Double Cutaway, Explorer, Firebird, Flying V & ES models, PRS Single & Double Cuts, Fender Stratocaster, Telecaster, Jazzmaster & Jaguar guitars as well as Precision and Jazz basses. Additionally, the AxeGlove® provides a "PickPocket" guitar pick storage pocket within inches of the players hand. AxeGlove® is designed to be used at Home, Live or in the Studio and provides unimpeded access to all controls and inputs when utilized. The custom, form fitting design for each model offers protection against wall hanger & guitar stand finish damage, minimizes belt buckle abrasions and provides overall protection to 80% of the body/neck thru its unique DOUBLE LAYER Cotton Flannel construction when fully deployed. AxeGlove® also absorbs sweat & moisture thereby offering further finish protection, especially on Nitro Cellulose finishes and is washable. AxeGlove® installation / removal takes but a few minutes; slip on the body and slip on the neck which is secured via three (3) belts across the fingerboard using Velcro pads. All models are offered in four (4) Standard colors; Red, Black, Tie Dye Red and Tie Dye Blue. During Winter NAMM 2010, pricing is \$29.99 and includes FREE shipping in the USA. For more information, visit their website at: <http://www.axeglove.com/>
